## Cover Story

Cougar, this issue's cover dog, was chosen by us to bid farewell to a special girl...CAN CH. SCOTIA TICKLES ME PINK. She was our first champion and in turn gave us our very first hombred champion, Cougar. We acquired Punkin from her breeder, Edna Girardot, and then left into the world of Poms. Punkin introduced us to the glamour and excitement of N.Y. in February. An addiction shared by many! She was our love and our cherished companion - we will miss her deeply.

CAN CH. POMSPRINGS PRETTY IN PINK was her second champion. Plum was selected as Best in Sweeps in February of '89 - a high which continued to soar as she became Canada's top female that same year! A nifty little girl with her own distinct presence.

POMSPRINGS has bred Group winning and placing Canadian champions and we always try to keep the numbers down to insure proper attention is received as by each fuzzy friend. We try to attend various U.S. regional as well as summer National specialty shows as they enable us to combine showing with vacationing and socializing.

We look forward to the 90's with great anticipation. Who knows, as a fellow Pom enthusiast said, maybe one of our TICKLES ME PINK children will have a little "Punkinseed" for us to love!

January Issue  
April Issue  
July Issue  
October Issue

Well folks, I really got mud in my face from what I wrote in the first issue compared to the actual product. And I don't deny anyone from throwing as much mud as they'd like. But please, hear me out.

Things got off to a bad start with the late (past deadline) arrival of copy/photos that I was told had to get in the April issue. Those items amount to photos of the APC Specialty and annual reports dealing with APC happenings. Also, I had no front cover until I received from the circulation manager material he had received from the previous editor. Included in this was a listing of who had reserved the front cover for the April issue. I placed the call to the advertisers (well after the deadline) and they immediately put their info together and forwarded it all to me. All of these things put me behind two weeks.

Then delivery of the final product to the printer, found two other dog magazines already there being worked on. Pom Review became project number three. I was then forced to locate another printer. This one was two hours away from me. I had seen products they had produced and knew that some of those products had won awards! So I was quite confident that they would published a quality product for us. I was assured they could get it back to me by April 20. As we know, that didn't happen.

And then when I did get the final product, I was sick! as I'm sure most of you were. I was honestly ashamed to mail it to you! I couldn't believe that something I had worked so hard on could become such a total wreck (at least from my trained eye)! Needless to say, I then became extremely angry. I marked a copy of the issue in bright, vivid red ink of all the areas that were bad. This was sent to the company via their sales manager. I allowed three days to pass then contacted the company and discussed my displeasure. From that point, Morris Carson, APC Treasurer also got involved in the negotiating aspect of reducing the price on the publication costs. This was agreed to and the company wanted to print this issue to get back their "good" name and added the two color production you see (at no cost) as a way of apologizing to the club and it's subscribers for doing such as horrid job on the April issue.

As you have received the July issue, you already know that you have received it earlier than usual. I meant to prove to you my letter in the April issue was factual and that I could deliver a quality product - on time! I hope this will re-establish some faith in my abilities. I will never be able to apologize enough to smooth the past over. But this and future issues will, I hope, earn your trust again.

I'd like to thank all of you who have written to me or have talked to me via the phone on your feelings about the April issue. Most of you have been extremely kind and realize the dilemma that I was going through. Your thoughtfulness was and is very heart-warming. Thanks so much!

One final thing that I feel is very important. Many of you are putting entirely too much writing in your ads. You need to be concise and to the point. All that writing really detracts from the overall ad and at the same time makes it necessary to reduce the size of the photo(s) that you have submitted. We may have to start limiting the number of words you'll be able to submit, if you don't do the cutting yourself before that happens.

Good luck at the Summer Specialty! I hope most of you have exciting news and advertisements from it for the October issue.

## Corrections...

The Pom Standard in the April issue was printed minus a very important paragraph on Body Coat. This is the omission as submitted by the Standardization & Elaboration Committee:

Body Coat: Double-coated: A short,

soft, thick undercoat, with longer, coarse glistening outercoat consisting of guard hairs which must be harsh to the touch in order to give the proper texture for the coat to form a frill of profuse, standing-off straight hair. A soft, flat or open coat is a major fault.

## President's Message

As I again address the membership, I realize that time keeps going by and here we are with the Summer National just around the corner. This summer it is very special to me as the Pom Club of Greater Baltimore is hosting the APC Summer National Specialty. What a treat to have everything going on almost in my back yard! I hope to see many of my personal friends and acquaintances there. The Baltimore Pom Club has been very busy getting things ready for both shows. Let me take this opportunity to congratulate them for a job that I know will be "well done" and also congratulations to all of you lucky winners.

Hopefully we will have enough Board members present to call for a Board Meeting. I have had several requests from the members for items they would like to see brought before the Board. Some of these are:

- a. the publication of 6 issues per year for the Pom Review.
- b. an increase in dues and Pom Review subscriptions.
- c. the prospect of having a semi-annual meeting of the membership

The Nominating Committee is also preparing to put before the membership a slate they feel will take care of the needs of the APC for the next two years.

Until next time,

Sincerely yours in Poms,  
Dolores

Update on Constitutional By-Law:

To allow moving the show from New York, if petitioned.

This was returned by AKC for an opinion to be obtained from the New York Department of State as to whether state laws require use to remain in New York. The statement received from the Department of State says our By-Laws are an internal matter and they have no jurisdiction. I sent this on to AKC and have not received an correspondence back.

Specialty '91, New York:

APC has been invited along with other specialty clubs to hold a combined specialty in New York for '91. This will be in the New York Ship Terminal on the Wharf in Manhattan. The facility is enormous with tons of room for rings & grooming. Free rooftop parking is available! Several hotels are in walking distance. Combining gives us many economic advantages with the facility along with the hotels. The APC board has approved this change & I will keep you informed as plans are finalized.

# Happenings Around The Country

April 19, in Edmonton, Alberta, the Fourth National Specialty of the Pomeranian Club of Canada was held. Captain Uwe Fisher of West Germany assessed the largest entry in the history of the breed in Canada (61 entries). Captain Fisher was extremely thorough and efficient as he moved through the classes, taking time to critique each exhibit. He in fact dismissed several Poms, but did so with good reason and courtesy. His placements were as follows:

Jr. Puppy Dog, Hobbits Panic Button, owners Michele and Frances McDonald.

Sr. Puppy Male, Chriscendo Cloudbuster, owner Christine Heartz

Juvenile Male, Candyman of Char, owner Mary Ushko

Open Male, Schimmel's Paddy Pomkin, owner Janet Barret

Jr. Puppy Female, Pandalows Prancing Becki, owner Ruth Lowe

Sr. Puppy Female, Spitfyre Lovely from Jayenn, owner Joan Grant

Juvenile Female, Jayenn's Ha Penny Pikkinokka, owner Til Labovitch

Canadian Bred Female, Bavanew's Silver Sparkle, owner Joyce Obuck

Open Female, Millamor's Hellion of Webwood, owners J. Obuck & Sue Goddard

Best of Breed, Ch. Bavanews Somewhere In Time, owner Matt Heindl

Best of Opposite, Christihill's Here's Trouble, owner Gerda Hill

Winners Bitch, Spitfyre Lovely From Jayenn

Best of Winners and Best Puppy, Chriscendo Cloudbuster

The entire weekend was fun and because of the variety of types and judges opinions, several different dogs won the breed through the weekend. Ch. Tynan's Bits N Bites, owner Natalie Dunfee, won Sweepstakes and the Breed and went on to place in the group at the Toy Dog Club of Alberta under Merrill Cohen, and the next

day under Jane Kaye. Mr. Kashiwagi chose Somewhere in Time and Edd Bivin chose Gloria Carlin's Ch. Marantha's Lil Benjamin. All three evenings, Pom puppies were in the running for Best Puppy in Show. The first evening, Mat Heindl's Bavanew's Starfighter won Puppy in Show under Edd Bivin. The next night, Chriscendo Cloudbuster, owned by myself, won Puppy in Show. So it was definitely a winning weekend for Poms. We look forward to a bigger and even more successful specialty next year (if that's possible!).

The Specialty was followed by a general meeting and I really felt it was an excellent one. Because our national club is relatively young, and our country is so large, we seem to have a distance disadvantage. This meeting enabled us to discuss topics that just can't be worked on through correspondence. We are currently working on Standards revisions and it is being coordinated through Till Labovitch, who is working under tremendous pressures from all sides. Only Till would be able to handle this. We all look forward to a clearer standard in the new format. Thanks to Till from all the members of the Pomeranian Club of Canada.

And while we are giving our thanks, a Big One goes out to Rick and Judy Page for their hospitality over the weekend. Rick chauffeured everyone around despite having a business to run and Judy filled in for Till who was out of the country until a couple of days before the Specialty. She put the Breed Booth together and we won 2nd place. Thanks also to all the breeders who lent their valuable scrap books, photos and precious breed momentoes that enabled us to win.

Had a nice note from Jenny Hryniuk (Noonan) to say that her homebred Ch. Tiperons Dandy Lion took a 4 pt. major in September of last year. Jenny reports she will be away from the shows for a while as she and her husband, Wayne, await the arrival of their first child. And they aren't the only ones awaiting the Stork. We hear Reg and Elizabeth Dupuis are planning for a playmate for their son Billy - arrival scheduled for September. We are all doing what

We wish to thank all of our judges. Don and Garrett For handling our first sweepstakes show very nicely and professionally. Etta Orenstein for her always cheerful self and for handling our precious Poms ever so gently.

We all enjoyed our annual buffet after the judging and as per usual we all ate too much. Many thanks to Gladys Dykstra and her crew for this. We then held our annual meeting with election of officers which are as follows:

President - Gladys Dykstra

Vice President - Jessie Young

Secretary - Alberta Mooney

Treasurer - Howard Mooney

Secretary in Training - Lois Hamill

Board of Directors - Claire Flesner, Amy McKay, Barbara Young, Sally Misuraca, Fran Fillette, Garrett O'Dell

The trophies this year were handled by Paula Payson and George W. Hand III. They were made of crystal with our club logo. Everyone commented on how pleased they were with this year's trophies.

Two members were voted in as life members - Ina Kniffin and Jessie Young.

Many of our babbies - well youngsters - are out in the show circuit this summer. We wish them all well and hope to be able to tell you in the October issue that they all ob-

tained their championships or CD's.

Have you hugged your Pom today?

## Dallas-Forth Worth Pomeranian Club, Inc.

31st Spring Specialty Show Report  
By Mildred G. Patrick and Bill McKinney

On Friday, March 23, 1990, the Dallas-Forth Worth Pomeranian Club held its 31st Spring Specialty Show. There were a total of 85 dogs entered with a total entry of 126! Sweepstakes judge was the very knowledgeable Skip Piazza, while the judge in the regular classes was the well known Janice Luginsland! We were very fortunate to have had such depth in our judges with their wealth of experience in breeding and handling Pomeranians!

In Puppy Sweepstakes we had 19 males and 22 bitches. The order of Mr. Piazza's placements were as follows: Puppy Dogs 6-9 months: First, Mac's Tag Along, owner Bonita Gray; Second, Mosaic Only A Dream, owner Mrs. Riki Barker; Third, Rosewood's Masterpiece, owner Mary A. and Evert L. Hammon; with ShyAcres Friday Edition, owner Kimberly Martin, fourth. Puppy Dogs, 9-12 Months: First, Berry's Sonny Delight, owner Barbara H. Grimison; Second, Patrick's Mr. Ted E. Behr, owner Mildred G. Patrick; Third, Sweetheart's Jack Frost, owner Mary K. Gibson; Fourth, Sweetheart's Glowing Embers, owner Le Ann Keasler.

Puppy Bitches, 6-9 Months: First, Susan's Help From Estelle, owner Susan Y. Ferguson; Second, Chestara's Charming Rhapsody, owners Bill & Beverly Henry; Third, Southlands Sweet N Sassy, owner Charlotte Creed; Fourth, Tim Sue's Highfalutin, owners Tim & Sue Goddard. Puppy Bitches, 9-12 Months: First, Janesa's Hi-Struttin UBet, owner Jerrie Freia; Second, Chesai-N-Starfire's Bon-Bon, owner Jose A. Cabrera; Third, Charmac's Here She Is, owner Jan Wilhite; Fourth, Southland Simply Elegant, owner Charlotte Creed. Best in Sweepstakes went to Berry's Sonny Delight. Best of Opposite in Sweeps was Janesa's Hi-

Struttin UBet.

In the Regular Classes, Janice Luginsland placed her winners as follows: Puppy Dogs, 6-9 Months: First, Reynolds Royal Sharel Ninja, owner Armetha Reynolds; Second, Mosaic Only A Dream; Third, Rosewood's Masterpiece; Fourth, Mac's Tag Along. Puppy Dogs 9-12 Months: First, Berry's Sonny Delight; Second, Sweetheart's Jack Frost; Third, Patrick's Mr. Ted E Behr; Fourth, Sweetheart's Glowing Embers.

Bred by Exhibitor's Dog was Sweetheart's Wee Cinna-Bear, owner Kathy Carroll and Second went to Wagner's Little Classie Kat, owner J. Ruth Wagner. American Bred Dog was Benji Hot Shot Tradition in first owner by Mr. J.D. Slem and Chris McClung. In Open Dog, First was awarded to Sharon's Tasmanian Devil, owners Sharon & Neil Poin-Corvo; with second going to Patrick's Mr. Dallas Lights, owners Colleen & Dough Sinor. Third was Uptown's Rockin City Lights, owner Dora Upton; leaving Prestigious Punky PG, owner Sherry D. Steinmeta, to take Fourth.

Winner's Dog was Sharon's Tasmanian Devil. Reserve went to Patrick's Mr. Dallas Lights. Number of points award was Five! There were a total of 31 dogs entered.

Puppy Bitches, 6-9 Months: First, Susan's Help From Estelle; Second, Southlands Sweet and Sassy; Third, Starfire's Jackelyn, owner Jose A. Cabrera; and Chestara's Charming Rhapsody finished in Fourth. Puppy Bitches, 9-12 Months: First, Janesa's Hi-Struttin UBet; Second, Ruby's Gator Maiden Oklahoma, owner Ruby F. Poole; Third, Chesai-N-Starfire's Bon-Bon; and Fourth, Charmac's Here She Is. First place in Bred by Exhibitor Bitches was Sweetheart's Miss Cameo, owner Kathy A. Carroll. Placements in American Bred was: First, Slep's Starlet From Pom-Chris, owner Mrs. J.B. Slep; Second, Mercer's Chelsie of Dal-Lea, owner Gertrude A. Howell; and Third, Cortney Huff, owner Cortney Erin Huff.

Open Bitch placements were: First, Tim Sue's Light of Destiny, owners Tim & Sue Goddard; Second, HHH Gidget Will, owners Annette L. Heise and Sandra L. Mueller; Third, Dal Lea's Moon Light News, owner, Gertrude A. Howell; and Fourth, Shamrock's Tia-Maria, owner Sheila Marion. Winners Bitch went to Janesa's Hi-Struttin UBet and Reserve to Susan's Help From Estelle. There were 34 bitches for five points!

Best of Breed competition saw nine specials entered! It was a beautiful and unusual sight to see so many lovely Pomeranian champions at one place and at one special time! Best of Breed was Kathy M. Bucher's dog, Ch. Shadowmountain One Man Show! Best of Winners was awarded to Janesa's Hi-Struttin UBet with Best of Opposite going to Ch. Tim Sue's Socialite, owners Richard & Bronya Johnson.

We would like to thank all of our exhibitors for making this one of our largest shows ever! Competition was intense, excitement ran high, the dogs were beautifully groomed and expertly handled, making this show in the very truest sense of the word! After the show, everyone convened at the Holiday Inn at Interstate 30 for an after show

dinner or barbeque, barbeque and more Barbeque! While the buffet was wonderful, the company was as warm as the food and we all had a great time.

The judges critiqued their placements for us with both candor and humor, Janice Luginsland commenting that she regretted that she wouldn't make but one entry truly happy! Skip Piazza's comments were appreciated by all and both judges did a wonderful job with their respective classes! We want to extend our warmest thanks and appreciation to them both!

### NEXT MATCH

Our next match will be held in Columbia, SC on August 18, 1990 in conjunction with the Piedmont Kennel Club Dog Show. As a result of large turn out of entry in Pineville in April, Don Wilson, President of the Columbia Kennel Club has offered us the opportunity to sponsor a Supported Entry at their show on August 19. A Supported Entry is a big step toward holding a Specialty. Our members have donated trophies for almost every class offered. Puppy classes will be divided. I know most of don't show in the heat of the summer, but please make these shows an exception. (The building is air conditioned.)

### POM PRINTS

Christine Hartz has graciously offered us copies of her lovely Pom Prints entitled "The Four Seasons" to sell as a money-making project. You can purchase individ-

## Pomeranian Club of Greater Des Moines, Inc.

By Tony Short

We held our first Obedience trial February 17, 1990 along with our regular specialty. Our club's interest in OB came about when we hosted the National Specialty in September of 1988. We had enough new members that was interested in OB to try to get sanctioned.

We held our last A trial in September 1989 and applied with AKC to hold OB with our February Specialty.

We feel we had a very successful show. Our two judges were Mr. Charles Anderson and Mrs. Mary Lou Doak. We had an entry of nine. Mr. Anderson judged Novice A and Novice B with an entry of three. Mrs. Doak judged Open A, Open B and Utility A.

Winners were as follows:

**Novice A:** C R Flamming Glory Man; 187; Pam & Gene Patton

**Novice B:** Pomirish Sugar Cane; 183 1/2; Marian Lazzara & Sally Baugniet

**Open B:** Tina's Fuzzy Mitten CDX; 191; Tina Godfrey

**Highest Dog in Trial:** Tina's Fuzzy Mitten CDX; 191; Tina Godfrey

Our sweepstakes judge was Marcia Hostetler with an entry of ten dogs.

The winners were as follows:

**Puppy dog, 6 to 9 mos:**

Lucky Pups' Timstopper Magic;

Lois McCrae

**Puppy dog, 9 to 12 mos.**

Saka's Short Round; Steve & Kris

Anderson

**Puppy bitches, 6 to 9 mos:**

Pramada's Fluffy Phenomenon;

Pamela Peat

**Best Puppy in Sweepstakes:**

Saka's Short Round

**Best of Opposite Sex:**

We are now half way into our second year, the sun is shining, summer is in the air! And as promised, our second year will also be a year to remember!

My goodness, there is so much to report on, I don't know where to begin. In March, we had a specialty fun match with a great turn out for Poms of many shades and fanciers.

BIM Puppy went to a cute bitch "Sandy," owned by Victoria Lovely and Blake Jones and BOS Puppy went to "Monster," owned by Rosemarie Schroeder. BIM Adult went to "Dennis," owned by Victoria Lovely and Debbie Hart and BOS Adult went to "Princess," owned by Tom and Carol Gillespie. We had a grand total of 33 entries.

Best In Sweepstakes went to "Princess," Best Veteran to "Circus Bear," owned by Caryl Prince. Best Junior went to Christopher Schroeder. Highest Scoring Pom

went to "Mischief," owned and handled by Nora Higbee with a score of 194! Worst Brace went to "Mariah" and "Prince," owned by Carol Gillespie. Best Trick winner was "Prince." We thank everyone who participated and came out to support this event. We look forward to seeing you at our June match! Need more information on the June Match? Contact Blake Jones, 12022 30th St. E., Puyallup, Wa. 98372.

The membership is proud to announce that we will be the 1991 Winter National Trophy Committee! The chairman will be our President, Victoria Lovely. We trust and stand behind our elected President and feel that as our leader, it is truly an honor that she should have. Send all inquiries to Victoria Lovely, 12022 30th St. E., Puyallup, Wa. 98372 or Wendy Feist, 6325 SE 73rd, Portland, Or. 97206.

Next, I must tell you all about an upcoming project! The membership will be presenting a 1991-92 18-month calendar! That's not all! We will be picking the featured photos via a PHOTO CONTEST! The photos to be headlined will be selected by a panel of non-members. In an effort to include as many photos as possible, we will be putting in honorable mentions. It is our goal to have the chosen photos in COLOR! The judging is scheduled to begin in September! Write me or call if you are interested.

Our Directory is being printed as of this writing and by the time you read this, it will be available to you. We are proud to say that there as many studs as bitches. It will feature over 100 Poms of many shades of the Pomeranian Rainbow! And Poms from Coast to Coast! To those of you who caught wind of this project late, I'm sorry. We will be putting together a second issue next spring and we hope you will join us! To get your copy of the directory, just send \$5 plus \$1 postage to me and we will gladly mail you one, two, three...

As our club creed states: The purpose of the Mt. Rainier Pomeranian Fanciers: To enhance the educational growth of all persons interested in the Pomeranian; To strive for perfection of the breed; and To be helpful and courteous at all times. This is something we all truly try to live by. We hold educational events after meetings and

sometimes have quizzes or guest speakers or demonstrations. And most important, we are friendly and helpful to each other and those around us. The Pom truly does come first with us.

We would like to congratulate members Jane and George Reed on all their recent wins and their new champion Jane's Lil Merri Puppies. And the Canadian championship won on Ch. Jane's Wee Prince O' Jeribeth. Jane's Sparkling Gold Peanut, I hear, has both majors. Congratulations also go out to Jessie and Tom Stephens on Jestom's Lovely Toy Soldier. I hear he has been catching the judges' eye.

Well try not to get too sunburned or rusted, as the case may be. Until the next time....

## Puget Sound Pomeranian Club

By Janell Reich

Our club is busy planning our first Licensed Specialty Show. It will be held Friday, August 10, 1990 in Seattle. There will be two all breed shows on Saturday and Sunday put on by the Seattle and Nisqually Kennel Clubs. We are very honored to have the American Pomeranian Club President, Delores Watts, as our Puppy Sweepstakes judge. We hope Edna will come too!

The Conformation Judge is Toy judge, Alexander (Sandy) Schwartz, Jr. We are pleased to be the third Pomeranian Club to be granted to hold obedience at our Specialty in 1990. Our obedience and junior handling judge is from our area and she is Betty Winthers. The club is offering beautiful rosettes for all the classes as well as crystal and silver trophies. We will put on a pot luck so all can visit. We have lots of wonderful prizes donated for our raffle! Hope to see you there!

Congratulations to club member Dana Plonkey as he was recently approved to judge Pomeranians. Our club now has two Pom judges.

Congratulations to Ch. Harbin's Carry-

ing on for Mom, as he placed fifth out of 99 all breed puppies at the Kennel Review Magazine/Iams Dog Food Tournament of Champions Invitational in Detroit, Michigan.

PSPC continues to help the community by teaching handling classes this year. At our April meeting, DVM Thomas gave a lecture on coat and skin care. At every meeting, members donate cans of dog food or dollars to the local Senior Citizens Food Bank to supply dog food for senior's pets.

Thank you to Wendy Feist for writing such great articles for our club in the Pom Review this past year.

Anyone wishing further information about our Specialty, please contact the Show Chairman, Alan Koeller, 1508 N.E. Brockman Place, Seattle, Wa. 98125 (206) 365-8276.

## Greater St. Louis Pomeranian Club

By Janice Young

We have been hard at work forming a new Pom Club to serve the area of Missouri and Illinois. We held our first meeting May 1 and were pleased with the energy and enthusiasm of those present. We are fortunate to have Barbara Chance and Pat Phillips who bring to us their experience in other breed clubs.

We are devoted to the advancement of the Pomeranian breed. Membership is available to all interested persons. Plans are being made for education projects such as grooming, ring procedure (conformation), and discussion of the breed standard. We also want to help educate the public to the importance of buying their puppy from a breeder.

Members recently finishing a Pom to a Championship are Florence and Carl Scott, JOLLY WEEMUSIC OF TIMSUE. They also need only a few points to finish a High Lights son. Linda Harris, BENJI'S PUNK ROCK TREADITION. Janice Young, STYLESTEPPER MARK OF OAKRIDGE. And the REALLY big news is Virginia North has bred her first litter in 20 years and has two precious girls.

(cont. on page 19)

Club members and prospective club members, please let me know of your show wins for our next column.

## Webfoot Report

By Jean Schroll

Oregon City, Or. 97045

This article will only be about members of the Columbia Pomeranian Club and local people since we have someone else covering Washington.

1990 started really well for the members of the Columbia Pomeranian Club. Jack Hookie and Ray Mooney finished their Angel with 4 majors. She finished at Seattle. Tom and Carol Gillespie got some more points on their homebred. It should put him close to finishing.

Timberland Valley KC saw Dennis Larson's Damata Heman winning the breed. Class placements for this show have escaped me since I didn't write it down when it happened. No one has told me who did what at Peninsula FDA. So there is not a report.

I have just finished a seven show circuit and will try and get this down before I forget. Palous Hills DF had an entry of 14. Jack and Ray's new girl was reserve. Lewis and Clark (on the same weekend) had an entry of 14 also and I must mention this as Marie Smith is a Washingtonian but her dog is handled by a CPC member. Ryals was winners dog. The part about Blitzen that is different is that he is white. He was also winners dog at Yakima for a 4 pt. major. And also one very type dog with good pigment.

The shows at Moses Lake, Wa. were not as cold as they have been in the past, so it was more of a pleasure. PHA has been having an all breed puppy match there on Monday evening. What fun it is! I was honored to be asked to judge and enjoyed it very much.

on a score of 1 to 100. It was different and it is amazing how close the two of us were on the different breeds. The fellow that was judging before me raises Corgis and so I thought when this Corgi came in the ring I would certainly mess up, but low and behold I did not! We were only 1 1/2 points apart. This happened on almost every breed we did and we were fortunate enough that a Beagle we judged, ended up going Best in Match.

None of the members did anything worth mentioning the rest of the circuit.

The weekend of Mother's Day there were two shows and none of our members did anything. That's all for this one.

## Obedience News

By Brenda K. Hutton

In the April issue it was announced that the Baltimore Pomeranian Club has been approved to hold the first Pomeranian Specialty Obedience Trial July 5, 1990. Hooray, hooray! However, it turns out this will NOT be the first Pomeranian Obedience Specialty. Unbeknownst to me (or it would appear most other people doing obedience with Poms) the Pomeranian Club of Greater Des Moines was approved, and they held the first obedience trial February 17, 1990 in Des Moines, Iowa. I discovered this astounding tidbit while checking the April issue of the AKC Awards Magazine. Congratulations to them!

They had a total of 8: 1 each in Novice A and B, 1 in Open A, 3 in Open B and 2 in Utility A. Judges were C.W. Anderson and Mrs. M.L. Doak. Qualifiers were: Tina Godfrey and TINA'S FUZZY MITTEN CDX, 1st place in Open B with a 191, which also was High In trial; P&G Laton with C R FLAMING GLORY MAN in Novice A with a 187; and Marian Lazzara in Novice B with POMIRISH SUGAR CANE with a 183.5. I would hope there is more about this monu-

### **CH. DESIREE'S SMOKEY MT. PRINCE**

(Desiree's Smokey Mt. Boy x Desiree's Model Brooke Shield)

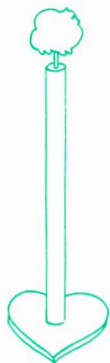

Prince is 4 lbs., with a gorgeous deep orange sable coat, great ear set and very outgoing personality. This young champion finished in April 1989 with three majors. He is a fine mixture of Great Elms and Bev-Nor lines. He is producing nicely structured, cobby puppies in sable and clear orange. He is also throwing his gregarious personality. (See pedigree in Behind New Champions.)

**Watch for Prince's puppies in the show ring this fall!**

Many thanks to his breeder, Desaree Sandifer, who has since retired from Pom breeding due to health reasons. I now have Prince's sire and dam residing with me in Texas. Prince would also like to thank Tammy Cartwright, who handled him to his championship.

mental event elsewhere in this issue.

It's too bad the De Moines people didn't let the rest of us know about their upcoming trial, or they might have had a much larger obedience entry. If the information appeared in the AKC Upcoming Events, no one knew to look for it. We've been waiting so long for the first obedience trial, that to find it has slipped right past you without your knowledge is very disappointing. As for the rest of us, hopefully we meet at the 2nd ever Pomeranian Obedience Specialty in Baltimore, Maryland on July 5.

Secondly, I understand that not only has the first obedience trial been held, but there were a total of 4 trials scheduled for 1990. Besides the Des Moines winter trial and the Baltimore July trial, Des Moines is having a second trial sometime in August, AND the Puget Sound Pomeranian Club in Seattle, Wa. is having their first trial Friday, August 10, 1990. All of you who have been working hard for years to make this dream happen are to be congratulated. Hard work and perseverance have won out over apathy and indifference! Pat yourselves on the back for a job well done. And I hope everyone who is desirous will find the time and money to attend one of these trials.

Before going into the new titles, I should explain last Thanksgiving I was laid up with pneumonia for several weeks and have not been operating on all cylinders since. Because Phyllis didn't run the January article, it was published in April. Now we've got six month of titles to report. With the normal delay in AKC publication, some of these results are nearly one year old. They are no less cherished by the owners and still provide some insights about judges for the astute among us.

**New Utility Dog Title**

Wonderful news comes from the Utility rings of Arkansas and Mississippi. Jo Ann Geeslin, Donna Crain Eddins and I FIDGET IN STYLE CDX (breeder/owners, son of OTCH TWINKLE LITTLE SUPER STAR) finished their UD January 20, 1990. They started with a 194 Dec. 3 at Little Rock DTC; followed by a 195.5 and 2nd place Dec. 17 at Jackson OTC under W.I. O'Regan; then a

188.5 at Mississippi State KC and an insurance leg the next day at Greenville Mississippi KC. CONGRATULATIONS! At the same time they were earning their UD, Fidget was also being shown in Open B and earning 1 HIGH IN TRIAL, 3 placements and 4 scores above 195. Now, just when you think there aren't many FIRSTs left to be won, how would you like to have (not to mention be the breeder of) the first OTCH Pomeranian OUT OF an OTCH Pomeranian? It would seem well within the reach of this powerful team. You might also remember that Fidget has a brother named Widget with Mike and Nancy Nesbit who's earned nearly all placements through his CDX and should be coming out in Utility any time now.

**Open A new COMPANIAN DOG EXCELLENT titles**

Tina Godfrey and TINA'S FUZZY MITTEN DC (breeder: Betty Klass) mentioned in the opening, finished their CDX last fall. April and Mary 1989 say a 190 and 2nd place at Waterloo KC and a 192 at Battle Creek KC where I met them. They finished with a 186.5 at Cyclone Country KC of Ames, Iowa and a 193.5 at Mason City KC last October.

Bonnie Buchanan and LINDSEY OF DOVER HOLIHOUSE CD (breeder: Kathryn Hartz & Pat Foley) have been working hard since last summer, and it's paid off with a new CDX title. They earned a 193.5 Nov. 26 at Magic Valley KC; a 195.5 and 1st place Dec. 3 at Palmetto OTC under M. Cohen; and a 189.5 and 4th place at Greater Columbia Obedience Club.

Lois Campbell and CH. MOONSHADOWS EYE OF THE TIGER CD (breeder: Paul and Sandy Logan, sired by Ch. Queenaire Coup D'Etat) have also completed their CDX. After starting in Sept. of 1988, they've gone on to get a 185 June 30 at San Luis Obispo KC; a 193.5 at Sun made KC of Fresno; and a 189 and 4th place the next day at Fresno DTC.

\ Carrell and KHANI CHOC COVERED CHERRY CD (breeder: Connie Hendricks) have their new CDX. They earned a 195 March 1, 1989 at Roanoke KC under O.J. Montgomery; a 195 March 24, 1989 at Durham KC; and now finished with a 189

(cont. on page 25)

at Richmond DOC Oct. 21. Congratulations to them.

Martha Chastain has been out with M C'S CHOCOLATE KESIA BAR CD (breeder: Juanita Fiddick). In Open A they wound up with a 187.5 at Greater Louisville Training Club; a 193 at Central Ohio KC; 195 and 3rd place at Middletown DTC under L.G. McCoy and a 192 and 2nd place at Greater Louisville Training Club.

Jerry Dietz and PENS AUGUSTA WIND CD (breeder: Penny Thomas) did a very nice job earning their CDX. Dec. 10 earned them a 198 and 2nd place at Antelope Valley KC (they lost a run off for a 1st place) under H.C. Jahelka. Jan. 28 they got a 197 and 1st place at Orange Empire Dog Club under A. Vanderburg; Feb. 4 saw a 195.5 and 4th place at the Kennel Club of Beverly Hills under H.W. Kohlman Sr., followed by a 197 and 2nd place Feb. 18 at Motoc DOC under Mrs. D.A. Ward.

Judy Lofgren and SPINACH FITZ CD (breeder: Anna Marie Hetland), mentioned in this column about a year ago, have also finished their CDX. Aug. 19 they earned a 197 and 2nd place at Valley Hills OB Club under W.R. Phillips; Oct. 21 saw a 192 and 4th place at Conejo KC followed by a 189 Nov. 12 at Cabillo KC.

Kenneth and Kay Lowe earned both a CD and CDX on I'M A CANDY ANGEL DOLL (breeder: Lynda Sondag) since our last excursion through the Awards. Their CD was earned the weekend of Sept. 9, 1989 with a 195.5 at Des Moines OTC under M. Sessel. 193 at Des Moines KC and 193 at Keomah KC. In October of 1989 they went on to earn their CDX with the following record: 187 at Mason City KC under Ms. D.M. Larson; 194 at Minneapolis KC; 193 at Bellevue DPC of Nebraska (losing a run off for 4th place) and a 185.5 at Greater Lincoln Obedience Club.

Elma Manies also finished a CDX on GOLD DUST PANDY MANIES CD (breeder: Louise Forrester). They got two more legs Sept. 23 and 24 with a 194 at Davis DTC and a 191.5 at Sacramento DTC.

Mary Morris From the Muskegon, MI area has finished a CDX on MR BO JANGE-

LES OF M AND M CD (breeder: Charissa Graveling). And wouldn't you know it, be finished at my home club, the Obedience Training Club of Greater Lansing, Dec. 9, 1989 while I was home with pneumonia, so I didn't even get to see it. DRAT! The last time I saw Bo, he was just a little 3 pound squirt, but boy does he put on a show! Congratulations, Mary.

Novice B new COMPANION DOG titles

Margaret McKee has been busy with CH. IDLEWYLD MARQUIS CUT DIAMOND (breeder: Margaret and John McKee, Ch. Idlewyld Lavalier CDX x Idlewyld Hope Diamond CD) who is co-owned by Bijon Blue Kennels. They were burning up the mats last fall. Here goes: 192.5 at Dog Owners Training Club of Lynchburg; 190 and 2nd place at Roanoke KC; 193 and 4th place at Danville KC; 192 and 4th place at James River KC; 195.5 at Warrenton KC under R.H. Cash; 181 at Virginia KC; 178.5 at Old Dominion KC of Northern Virginia; 183 at Mount Vernon DTC and 190.5 at Rock Creek KC. Phew!, what a show! All this was between September 17 and October 15.

At the same time and in the same trials (glutton for punishment) Margaret and IDLEWYLD CHARM BRACELET (breeder: Margaret and John McKee, Ch. Idlewyld Gemstone CDX x Ch. Idlewyld Star Pendant CD) were in constant competition with Diamond. Their showing was as follows: 192.5, 188.5, 193, 196 at Warrenton KC losing a 3-way run off for 3rd and 4th place under R.H. Cash, 195.5 and 1st place at Virginia KC under J.B. Chappell, 197 and 3rd place under Mrs. J.C. Patton, 190.5, 191.5, 192 and 194.5. It was lots of fun seeing these two battling it out trial after trial. Margaret, perchance do you have any stories about this duo? By the way Margaret, do sits and downs ever get any easier?

The owners of (I'm not sure who showed him) DOVER-HOLIHOUSE HEV'ENLI HASH (breeder/owners: Pat Foley, Katheryn Hartz and D. Ninatoski, sired by Ch. Pombreden's Heavenly Toy Boy) have a new CD to their credit. Dec. 2 they began with a 195.5 and 3rd place at Philadelphia DTC under Ms. K.A. Hertzog; Jan. 28 saw a 109.5 at Princeton DTC, and Feb. 26 earned them a 189.5 at KC of Niagara Falls.

(cont. on page 26)

Diane Clark-Bryant has successfully completed a CD on LADY DI'S CALL ME MADAMPARTI. They did it with a 186 at Vancouver KC; 192 at Dog Fanciers Assoc. of Oregon; 189 at Idaho Capital City KC; and a 189.5 and 4th place at Lizard Butte KC.

Debbie Kennedy recently completed a CD on CH. WATTS' LITTLE LOVE BUG (breeder: Dolores Watts, sired by Ch. Watts Little Peter Tan-M-Best). They earned a 183 Nov. 11 at Salisbury Maryland KC; a 192 Nov. 12 at Mispillion KC; and a 190 at Dauphin DTC.

Jimmie Lawrence and CRICKETTES MIDNIGHT SONG CS CDX (breeder: Renee Lawrence) recently contacted me. She is a very busy lady who teaches obedience classes, has put a UD on a German Shepherd and is working very hard to learn Teri Arnold's methods. Crickett will be 6 years old in June. Besides having earned a CDX, he placed 10th in the last Gaines Tournament he attended having been in first place Friday, 2nd place Saturday until he was distracted by what Jimmie described as a totally atrocious problem with flies in the arena on Sunday. In the Memphis Gaines he placed 24th out of 70. This year he will attend at Arlington, Texas Gains tournament in Open. Among his recent accomplishments are a 198 in Open B for 1st place at Tyler OTC under Mrs. G. Pugh. Unfortunately, he was not the winner of the run off for High In Trial.

Janetta McKay and DONARA RAMBO LESTER (breeder: Nancy Shellman) earned a CD last Labor Day weekend with a 185 at Bayou KC; a 191.5 at Red River OTC; and a 184.5 at Longview KC.

Alice Richardson and HONEYBEAR'S TRACY LEE (breeder: Loretta Nelson) did very well on their CD. May 14, 1988 started with a 193 at Springfield KC followed by a 195 Nov. 13, 1988 at Nathan Hale Obedience Club. One year later, they've finished with a 192.5 and 4th place at South Windsor KC and with a 188 insurance leg at Springfield KC. Talk about patience!

Dawn Robertson and SUNWAY'S BLACK BREEZE (breeder: Nadine Carriker) did very nicely earning their recent

197 at Des Moines KC under R.N. place; 194.5 at Keomah KC under John Blenkey (looks like they missed a Dog World Award by .5 of a point!); 193.5 and 4th place at Greater Emporia KC; 196.5 and 2nd place at Hobbs New Mexico KC under Kate Pankin; and a 191 and 1st place at Grand Island KC.

Eileen Stopa and DOVER'S HOLIHOUSE SNO FLOWER (breeder: Daniel T. Chen) earned a CD last fall with a 183 at Shrewsbury DTC; a 170 at South Windsor KC; and a 180 at Windham County KC.

S. Winchatz and DOVER-HOLIHOUSE FIRE N' ICE were extraordinary in earning a CD. (Wouldn't you know, Awards hasn't been published their title, so I don't know who the breeder is!) January 21 they earned a 199, 1st place and HIGH IN TRIAL at K-9 OTC of Essex County, N.J. under J. Iermiero. Jan. 27 they earned a 198.5 and 2nd place at Princeton DTC followed Feb. 18 with a 197.5 and 2nd place at Staten Island Companion DTC under N. Friedman. What a beautiful job!  
Novice A new COMPANION DOG titles

Fay Cleary and POMPUF SPARKLIN FIRE CHIP (breeder: Gwen Hodson, Ch. Pompuf Fancy Fire Disco) earned their first ever CD in three straight days. Sept. 9, 1989 saw a 179 at Des Moines OTC; followed with a 181.5 at Des Moines KC and 183.5 at Keomah KC.

Patricia Farrington and TIKE'S LITTLE TEDDY BEAR (breeder: Nancy & Charles Brenneis) got their first CD last fall. They began with a 183.5 at Oklahoma City OTC; a 190 at Tulsa DTC; a 171 (oops!) at Oklahoma City KC; a 178 at Oklahoma City OTC; and a A182.5 at Town and Country KC.

Lawrence and Joann Giesting, along with MS FOXY LADY IV (breeder: Fred & Judy Tiemeyer) have a new CD. In October they won a 190.5 at Middletown DTC; a 178 at Hamilton DTC; and a 182 at Queen City DTC.

Charles Gillespie and GIZZMO MOWAI (breeder: Ruth Ann Hamm) earned their CD with a 186.5 at International KC of Chicago April 2, 1989 followed by a 185.5 at Starved Rock KC in July and a 186 at Nash-

ville DTC in September. (I'm always intrigued by people who show in obedience at a benched trial. It seems to me that benching is predominantly for the breed dogs, not obedience dogs. For me, they seem to be uncomfortable, hot, busy and too-o-o-o tiring!)

Mary Olsen and RED FOXES ROBIN (breeder: Barbara J. MacCracken, sired by Metros Red Robin CD) have earned their first CD. Aug. 19 they earned a 182 at Olympic KC followed by a 183 at Timberland Valley Dog Fanciers Assoc. and a 181 at Spokane KC.

D. Rogers and LORD ALZADO PEPPER CORN earned their CD with a 183 at Memphis OTC, 185 at Little Rock DTC and a 192.5 and 3rd place at Memphis OTC.

Kenneth Torress has finished his first-ever CD with POMERENIE LITTLEFOOT (breeder: Lela F. Madison). Their three legs came with a 182 at Cudahy KC, a 185.5 at Elkhorn KC and a 187.5 at Kenosha KC.

Just a reminder, when you are at a trial, or even your local obedience class for that matter, keep a close eye on both your own dog AND on all the other dogs. Recently someone related a story to me regarding a Pom being bitten by a German Shepherd during obedience classes. It seems the GSD had bitten before this incident and was on probation in the class, being required to either be on a lead, long line or muzzled at all times. While practicing the retrieve on the flat, the GSD was sent for the dumbbell. He started in that direction, broke off and headed straight to the Pom, who was on a sit/stay next to his mom. Luckily mom saw him coming and quickly scooped the Pom into her arms, but the shepherd managed to grab a mouthful of hair and bruise the Pom. At this point it's uncertain whether the Pom will return to obedience. Although mom is a very experienced exhibitor, the dog has been severely traumatized by this experience. We cannot be paralyzed or we will never be able to participate, but constant vigilance cannot be over emphasized. Be careful out there!

Even though we don't have great numbers of people having Poms in obedience, a lot who do are dedicated to both the

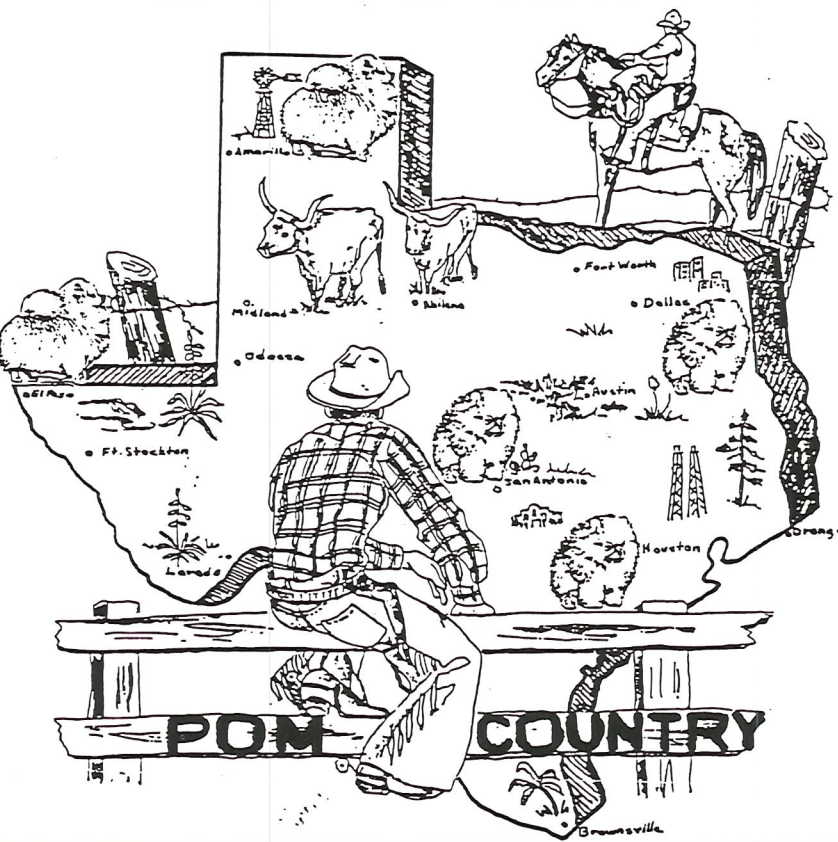

breed and to obedience. During this six-month span we've seen 10 new CDXs and 1 UD. Suddenly, (it seems like overnight) there are not one, but three local Pom clubs approved to hold obedience trials. Chances are very good that the American Pomeranian Club will also be approved to hold obedience trials, possibly as early as summer of 1991. These developments represent several years of hard work by many people in widely scattered parts of the country in a variety of capacities. I believe it also represents the obedience arm of the APC in encouraging each other, sharing ideas and goals, support of obedience by the APC, space devoted to obedience in the Pom review, and breeders all over the country lending their support with paperwork and helping at fun matches to see our wonderful Poms shown in all aspects offered by the AKC. Just look at all the new awards offered by the APC for obedience accomplishments!

When I first became involved with the APC, the question was, "Why be involved with this club? There's nothing here for me." We are now a more well-rounded club which has more than ever to offer to anyone with a Pom. We should take pride in the giant strides made. Let's enjoy the glow of our accomplishments while they are still new, then set even higher goals. Anyone interested in the first ever Pomeranian Specialty Tracking Test??? We have some lovely grounds here in Michigan and great judges.

As always, the answering machine is always on, but beware your phone bill if I'm home. Call me at (517) 485-5183. Here's hoping your dog is always a happy heeler and a terrific tracker!

## Helpful Hints

By Margaret R. McKee  
2426 Sandy Hook Road  
Goochland, Va. 23063  
(804) 556-3380

There were several typos in my last column, two of which drastically changed the meaning of the sentences. First, when I was talking about lagging while healing, what I had actually written was "I'm convinced that the best way to teach a dog to lag is the Koehler method." When describing Brian McGovern's training techniques, I did not write that "He uses lots of tiny toys on the leash," although that is certainly an intriguing picture! What I wrote was that, "He uses lots of tiny tugs on the leash."

Probably by the time you read this, the Baltimore and Summer APC Specialty will be over. The members of the Pomeranian Club of Greater Baltimore will have heaved a huge collective sigh of relief. They've been working toward this event for years, and putting on back-to-back specialties is hard work.

There are a lot of people out there that you don't know, who make your doggie activities possible. These are the people who work behind the scenes to put on shows, matches, trials, and Gaines events. These are the people who put together seminars and clinics. They teach obedience and handling classes. They bake cookies, write letters, order ribbons, sell T-shirts, solicit ads. They spend hours in front of the computer making mailing lists, typing premium lists, preparing newsletters, and compiling statistics. They get cauliflower ears from talking on the phone - consulting, advising, planning. They donate trophies. They arrange for show sites, port-o-potties, jumps and baby gates. They mow grass or direct you to a parking place. These volunteers are essential to all aspects of the sport of dogs. They do it for neither pay nor glory, but are motivated by their love of dogs and their fellow dog people. And without them, we wouldn't have the shows, matches, picnics, newsletters, classes, seminars, trials, and parties that make our lives so interesting.

So the least we can do is say "Thank

YOU! Either verbally or in a note, let the show or match chairman, the trophy donor, or the class instructor know you appreciate their efforts.

Look for ways you can make a contribution - in time, effort, money, or all three. Speak up and volunteer. Don't wait to be asked or begged. Ask the chairman where he needs help most. Or offer to do a specific job: "I don't have much time, but I can pick up judges at the airport." "I want to show that weekend so I'll work on advertising." "I always learn something when I steward." "I don't care how busy you are, how old or young you are, or how rich or poor you are, there are ways you can make a valuable contribution to your club. Your energy and time are needed. And you'll find that pitching in is fun.

I said in my last column that Baltimore's specialty would be the first independent Pomeranian obedience trial. Ooops. In February, Des Moines quietly beat us to the punch. I guess they didn't realize how very special those obedience classes were. And later this year, Puget Sound Pom Club will offer obedience classes at their specialty to be held on August 10. Way to go! It is important not only to offer these classes, but to publicize them so you get maximum entries. Hey, regional clubs are truly starting to appreciate obedience. Hurray! Now let's hope AKC notices and gives APC approval to hold trials.

In January of '89, I attended a Volmer Super Puppy Seminar. Since then, I've been using an adaptation of that curriculum to teach puppy classes at the obedience club. In May, I gave a talk to a local Collie/Shelty Club about the classes. Wow, did that cause a stir. A week later, a woman called who said she'd been leery of obedience classes, but when could she sign up? She said she now realized that many of her dogs' problems could have been solved in puppyhood, if she had just known what to do.

First, let's once again tackle that hideous dragon "Don't train them in obedience 'til you've finished the championship." Far too frequently, I've met dog owners whose breeder had sternly warned them not to take the puppy to obedience class because it would mess up their performance in con

(Cont. from page 41)

formation. I'm here to tell you that's utter nonsense. And I have the right to tell you because I've personally owned 6 dual-titlists and handled others. Of mine, 4 had the CD before completing the championship. But won't the obedience trained dog sit in the conformation ring? No, why should he if you don't tell him "sit?" He has learned the "stand" command as well. The only dogs I've handled who frequently sat in the conformation ring were ones who never set paw in an obedience class.

On the contrary, obedience training improves the performance in the breed ring in many ways. They stand still on the table. They know food rewards must be earned. They focus attention on you and are not easily distracted, even by a bitch in season! They have more self-confidence.

We all agree we want Super Puppies - dogs who are poised, friendly, alert, confident, and out-going. Dogs who respect and obey their owners, can handle new situations, are capable of learning, and able to do their "job." To achieve this takes effort on part of both breeder and owner.

**0-3 Weeks.** We begin on day One, the day the puppies are born. For the first 3 weeks of the puppies' life, as their brains and senses slowly begin to function, they are handled daily - stroked, examined, turned on their backs, weighed. I talk to them. I hold them against my cheek and croon to them. Even though they are in isolation in my bedroom, the television and radio provide a variety of sounds. The kids are in and out. I run the vacuum cleaner.

**3-7 Weeks.** Provide toys - rawhide chews of different sizes and shapes, tiny squeakers, a ball from a jacks set. While you're cleaning the X-pen, let them run around the room and investigate. Make noises. Drop an empty cardboard box or a can. Praise the puppies who go to check it out.

When the weather is good, I take them out as they've had shots, they gradually are introduced to the other Poms, the cat and the Greyhound. We start taking short rides in the car. They get to go to a club meeting and be passed around, or visit a friend's kennel. At eight weeks, they're old

enough, physically and mentally, to start class.

**First Week of Class.** In teaching this class, I keep in mind that the majority of participants are NOT going to compete in obedience. There may be one who is interested in conformation or hunting; the rest are pet owners; many are first time dog owners. So the first night of class we talk a lot about dog psychology. We explain that their puppies are not little people in fuzzy suits, but are really funny looking wolves. Owners are taught dominance exercises, to establish that the owner is alpha. We tell them what it means to be a "den animal," and explain the importance of using crates. Their homework for the first week is:

1. Practice dominance exercises 5 times each, every day.
2. Take puppy for a walk every day. Puppy is allowed to pull on leash. 3 days a week walk is taken in a new place.
3. Once a day, puppy is allowed to meet a new person.
4. Reading assignment in textbook.

You may be surprised that we don't permit much play among the pups during the first weeks. They may greet each other by touching noses while owners hold collars. Those collars, by the way, are adjustable nylon buckle collars that we provide.

**Second Week.** We meet problems head-on. This is that the majority of people come to class for, and we like to deal with behavioral problems while they're minor. Barking, chewing (objects), jumping up on people, and nipping or biting (people) are handled with a variety of approaches - a shaker can, collar and leash, and bean bag. Scruff shake and alpha wolf rollover are used for aggression. We talk more about housebreaking and give them a pamphlet about use of crates.

Controlled walking is introduced. The lead is held with both hands. The lead is "popped" only if the pup is pulling away from (and thus looking away from) the owner. Printed homework sheets are given for all 8 weeks.

**Third Week.** Controlled walking is continued. Puppies are taught to sit and come on hand signals. We want the pups' attention focused on the owner. The owner

(Cont. on page 45)

## Helpful Hints

(Cont. from page 44)

can't nag "Sit, sit, SIT" if he isn't permitted to say "sit" at all. Food is used to teach these exercises. You'd be amazed at how quickly the pup responds and starts plopping his fanny on the floor and looking up.

**Fourth Week.** Controlled waking continues. Owner now holds lead in one hand and encourages pup to stay on left side. Recalls are done by having owner call puppy away from a distraction. owner is not permitted to use command "front" to call his dog in addition to the signal. "Stay" is introduced. A grooming demonstration ends the class.

**Fifth Week.** Principles which we've been applying are pointed out: Do each exercise 3 times, then take a Time Out (play). Fast feedback — praise or correction must be quick. Teach any exercise in small steps. During most exercises, all verbalization is happy talk.

We then show them how to apply the above principles to agility work. This is great fun for everyone. It really boosts the puppy's confidence. During the next four weeks the pups play soccer with a real soccer ball, jump through hula hoop, go up and down ramps, and race through round and rectangular tunnels.

By this time, I've been able to carefully observe the puppies personalities. Some of the owners have received private counseling. Now we divide the room up with baby gates, and I divide the puppies into play groups by size and personality types. The owners are ordered to remove the leashes and stand back against the wall. The owners are surprised, and at least two are frightened. Each play group has one of my assistants assigned to it, but we rarely need to interfere. Because of their prior experiences and the separation into groups, the pups play happily together. My assistants and I get a big kick out of this, and it is also another learning experience for the pups. For example, the Boston Terrier had done a good job of convincing his owner and the other pups' owners that he was aggressive. I put him in the play group with the big goofy Golden Retriever and the two Labs. Camper quickly decided he could play

**Sixth Week.** We finally show owners "down," again with food. We explain how to phase out food on other exercises. Distractions are added to controlled walking and recalls. More agility work and play groups.

**Seventh Week.** Play retrieve demonstrated. Importance of exercise and proper diet is discussed. "Stay" is added. "down." All exercises done with distractions.

**Eighth Week.** Graduation. Everything is reviewed. Any remaining or new problems are discussed (such as digging). Owners are encouraged to continue training...Most do.

It is astonishing even to me, how much these pups learn in eight short weeks. It is fun to watch their little mins grow rapidly as their young bodies. By the end of the class, most of these puppies are big awkward 5 and 6 month olds. But the owners have control, and know how to deal with the backsliding that inevitably occurs when puppies teethe.

If you think about it, you can see how such a program would be advantageous to the Pom headed toward the breeding ring. He learns to walk on lead on your left side. He learns to watch your hands. He learns he is a pretty special fellow who can competently perform around other dogs (even big ones), in strange situations, and with all kinds of distractions. Standing on a table is no big deal to a pup who had climbed a ramp, crossed a bridge 3 feet off the ground, and descended another ramp. A out-and-back in grass is a piece of cake to a dog who can do formal recalls through a tunnel.

Obedience training has changed dramatically over the years. There is more emphasis on positive, gentle methods. Training is more creative, flexible, and fun. So check out a school or club near you. If you have questions about the Volmer puppy curriculum, please call or write me.

As president of the obedience club I get newsletters from other local clubs. The following is from the April Chickahominy Dog Fanciers "Smoke Signals:"

"The first time I attended an obec

ence trial, I was totally confused by everything I saw. The people and dogs in this ring were doing totally different things from the people and dogs in that ring. Suddenly my eye fell on an adorable little orange puff ball and I was captivated.

"I later learned that not even playing children or a neighbor's cat could deter him from bounding over a jump in pursuit of a dumbbell and it was returned smartly with a twinkle in his eye that seemed to say, 'I DID IT!'" Watching this little dog sent me running to sign up for my first obedience class.

"Pooh" became ill last week. He spent the day at the vet's and was then transferred to ICU for the night. The prognosis grew worse and worse and finally his owner had to make the decision every dog owner dreads. His labored breathing seemed to ease a little as he heard his beloved owner's voice and felt the gentle touch of her hand. He felt her tears falling on his head and seemed to understand the pain would soon be over.

"Ch. Idlewyld Star Coral CDX was the first Pomeranian I ever met "in the fluff" and he was a wonderful ambassador of the breed. His quality and versatility are evidenced by the titles in front of and behind his name. To see him was a delight - to know him was to fall in love and a privilege.

"It still hurts to talk about him...tears are yet so ready to flow. I have not been able to tell his owner what "Pooh" meant to me. In time I will. It helps a little for me to think that "Pooh" has joined his mother "Chatter," in the life beyond, over the Lost Horizon."

The newsletter arrived just five days after "Pooh Bear" died, and I dissolved tears again. This tribute was written by Sandra White. Sandra and I met shortly after she bought her first Tibetan Terrier. Friends of hers were neighbors of mine, and she began dropping over to watch Pooh and practice. Gradually over the years, Sandra and I became good friends. Last December, she bought her first Pomeranian, and she went with me on that last trip to the vet.

Still, I had no idea what Pooh

meant to her. I never realized that he was partially responsible for her becoming involved in obedience. The point is - you may not know just how much influence you and your Poms have. You never know who is watching as you groom, train, or show. I always ask people who call to inquire about puppies how they got interested in the breed. Occasionally, someone mentions seeing a Pom at a demonstration or in the obedience ring. If you're a handler, you never know who's observing to see how careful and concerned you are about your charge. At shows, that spectator you just brushed off might have been a future puppy buyer. Let's all be careful to be sure that our influence is a positive one.

## I Remember When

By Dorothy Bonner

Several years ago, I wrote an article on my little "adopted" Pom, Melody. She belonged to my friend, Sue. Sue had a bad heart with repeated sessions at the hospital, during which time Melody would stay with me. As soon as she was able, Sue would call, and Melody and I would meet her at the front gate. The reunion was always joyful.

Melody was about eight years old when Sue was confronted with a triple bypass and asked if I would care for Melody permanently if the operation was not successful. Sadly, it was not. Melody lived in my bedroom and made the best of the change in her life. But she had absolute faith that Sue would eventually come for her at the front gate, and Melody always waited there whenever it was possible.

At fourteen years, Melody had a stroke which left her front legs useless and stretched to each side, with her chest flat on the floor. Undaunted, she learned to make swimming motions which pushed her along to desired places. Yesterday, I carried her out to the yard and placed her near the front door beside her water dish. She always enjoyed the sunshine and the weather was lovely.

Assuming that she was OK, I forgot about her until time to feed in the early afternoon. Looking out at her, it was no surprise that she had made her way to the

(Cont. on page 47)

front gate and seemed to be sleeping there.

No - not sleeping - Melody was dead. At last, it had happened. Sue had finally come for Melody and the waiting was over.

Their reunion was always such a joyous time, so I must not grieve, although my heart aches for the little Pom that I had grown to love.

## "On Borrowed Time"

By Marye Picone and Anna Liselli

This article should be entitled "On Borrowed Time" .....you will clearly understand why as the story unfolds. Anna Liselli of Mastic Beach, New York, had high hopes for a little four-legged fellow she bred named Bubba, a one and a half year old male Pom. He was the "special one" - full of life from the day he was born. He grew, developed, and soon was ready to show. Off to the show ring he went with Anna, and was shown for a few months before tragedy struck.

As Ann reflects upon the events that led to this, she remembers that this little dynamo began to slowly change — loss of appetite, listlessness, and muscle tone...BUT no lameness, soreness in the joints, or a rash. Hot weather and a bitch in season, surely, these were the causes of the unusual behavior. The first true warning signs were: frequent urination and an increase water-intake

Bubba was then taken to the Shirley Veterinary Hospital, Shirley, New York. There he was put under the care of Dr. Susan Troka. A physical exam, routine lab work, Lyme Titer, and urinalysis were performed. Results of the lab work conformed a diagnosis of Lyme's Disease with kidney involvement. Since Bubba's condition was deteriorating, hospitalization for intensive treatment was recommended. Intensive care consisted of intravenous antibiotics, specifically, Chloramphenicol.

During his five days stay, Bubba ate minute bits given by the staff and yet lost weight - went from five pounds to four pounds. Anna's help was requested.

"Each day I visited, he ate a little

more and showed a little more enthusiasm. I was elated! He would be going home soon. He did come home and still ate poorly. The totally refused food, regardless of what was offered. Perhaps, force feeding might help. I made up a formula of goat's milk and fed him one teaspoon (using a syringe). He did not accept this at all. Vomiting began soon after. By the next morning he was dehydrated and looked sick. Back to the vet he went to be put on intensive care. It was "touch and go" as to whether he would survive.

"Now it was confirmed that there was severe kidney damage. I felt that perhaps it would be best for his sake to "let go. With continued encouragement from family, friends and Dr. Troka, we did not give up on him. His veins began to collapse so intravenous feeding was becoming an impossibility. He was weaned off intravenous and fluids were given by injection under the skin. He was still in serious condition but it was thought that home would be the best place for him with "TLC."

"When he came home, the nightmare began. At this point I felt I was torturing him. He totally refused to eat any of the U.D. diet. I then had to force feed very two hours using a syringe.....mashing the U.D. until it become gruel-like. He also had to take an antibiotic three times a day. This was forced. I gave him Nutrical four times a day to build up his strength. After a few days of forcing the pills down his throat, a light went off in my brain. Why not combine Nutrical and the contents of the capsule? Hooray! He kept the food down but still did not appear to be improving...attitude was deteriorating to the point where he was not fighting anymore any longer. He began to accept his fate. That's when I realized I was in trouble. He was losing his fighting attitude. I felt he was going to give up. At that point I called the vet and we discussed trying a different diet.....which worked!

"He was put on K.D. kibble and he accepted it. I started handing him one piece at a time. By the end each day he would have consumed the prescribed amount. All force feeding ended and he slowly was changing in appearance, regaining weight and back to his "Sassy Self."

*On the following pages as well as elsewhere in this issue, we are pleased to present many of the top stud dogs of the past, the currently leading sires, and also many of the up-and-coming names.*

*Although the number of champions sired by a stud dog is only one way of assessing the influence of that particular dog, a large number of winning offspring is one of the main causes for pride in a stud dog owner.*

*The Pom community certainly has a lot of pride going around.*

"Today he is back to his normal weight but is still in compromised kidney function. He is closely watched...for excessive urination, change in attitude, fluctuation in weight, change in stool color or consistency. He lives "On Borrowed Time."

"All this would not have taken place if I were not encouraged by his caring

veterinarians (Drs. Tepper and Troka) and my friends and family who held my hand through this ordeal. That is why I offer my helping hand now. If anyone needs encouragement or information, feel free to contact me (516-281-8246) or Dr. Susan Troka of the Shirley Veterinarian Hospital (516-281-8820)."

A combination of Showstopper and Millamor brought us Dayne. By the time ad gets in we hope to have her finished down here. Dayne needs only two points to finish her Am. Championship. Dayne has a date with Am/Can Ch. Midas Ragtime Rock before he goes home to live with Bobby. Thank you Bobby for the joy of having him here with us. We will miss him.

Thanks Roberta & Jon Massey for letting us have Rhythm. He's just like his mother. We hope to continue on where you left off Bobby, so we introduce his first daughter.

Dayne's grandmother. Thank you Sandra Orford for finishing Pepper in both countrys for us. Pepper has two sons that will be shown this year. "Jan Le's Lasting Impression," co-owned by Rose Hansen of Highview Kennels, Beldenview, Wi. and "Jan Le's Mark My Word," retained by us. We also hope to have their sister "Jan Le's Slightly Off The Mark," in the ring sometime this year.

## AM/CAN CH GAULKES PEPPER UPPER

(Am/Can Ch Ken Nor's Don't Letem Kick  
x Gaulkes Bottom Up)

We've had fun with this one. At 3 mos, 3 weeks, Tillie went BOS over a special for her first 4 pt. major and the next day went BOB over a special a on to Group 1 for a 5 point major. She lacks just 4 singles to finish.

**FLASH!!** Another Jan Le Pom finish - "Am Ch Jan Le's Rock N World" finishes with 4 majors. 1 brother to Rhythm.

On May 7, 1990 I received my April issue of the Pomeranian Review (first class Mail) Upon opening the envelope saw the lovely photo of Ch. Great Elms Prince Charming II very well presented except for copy across the floral arrangement. Admired "Prince" always enjoy seeing a picture of him. Then flipped the book over to see what was on the back cover well you have a copy and have read the Editors Ad. as I have. Then opened the back cover to scan the alphabetical listing of advertisers I didn't find it. Had this been deleted by our "NEW EDITOR"??? This page is valuable for a cross reference I use it as a reference guide to refer to across the years. I use it to see what this and that breeder was showing 2-3 or 4 years ago also for a ready reference for a telephone number or address if I need to contact another breeder. How will I ever quickly ever find who advertised who in the April 1990 issue.

Most of the photographs were very dark poorly screened detail lost in reproduction. The Ads were poorly put together with large bold ugly type, photos squeezed to make room for the large type used. Most were poorly positioned margins were very uneven the editors ad on the back cover not entered not proof read. (Did he pay for his ad?)

So Please put the alphabetical page back in improve the sloppy layout correct the sloppy page positioning return the Review to the Prestigious Publication it was. I will then renew my subscription and advertise occasionally support the Review. If I run an ad you better bet I will send in Camera ready copy.

Barbara Whiddon

...ers and Board of Directors, she ended with a post script that she had retired after 23 years in ad layout and design and was also an instructor in photo offset printing. An admirable career indeed. But photo reproduction is based on the photo submitted. Dark backgrounds, which most photos submitted consist of, require an immense amount of camera play to lighten, thus taking the chance of distorting the focus of the photo - the DOG! This is a printer area, not an editor area.

And no there was not listing of advertisers because there were not an additional three pages needed to make a complete run. Remember, it takes four pages of layout to make one run. Count the pages in the April issue - 96. That means it was an even number thus not allowing the advertiser's page. This is not an intended continual plan of mine to leave this page out. And yes, I paid \$65 for the back cover ad. Check with the treasurer.

Sloppy page positioning was not due to my layout. This again was a printer problem. Some people would prefer a larger type to better attract the eye. I think layout and design concepts may have progressed a bit since Ms. Whiddon's active time in the field.

Anyone is free to write me and send for a copy of my actual page layouts in the April issue (at a cost of course). You will find they were perfectly straight and even borders were marked for each photograph. Did you see any photos with borders in the April issue? No, again, printer neglect.

I appreciate Ms. Whiddon's concerns, which are also mine, and every other subscriber of PR. Through exchanges such as this, I believe we all share a closer bond.

By the way Ms. Whiddon, issuance of tear sheets of stud issue copy is not something that has been normally done in the past, so I have been told. If anyone cares for such, an additional charge will be levied. The printer is currently working up a price for this, per page.

Below is a response to the above letter by the editor. It was chosen to run the above letter exactly as it was received by the originator, no lifting of grammar, sentence re-structuring or insertion/ deletion of punctuation(s.)

As I tried to explain in Opening Views of this issue, there were a lot of unforeseen problems with this issue which I feel was to be expected due to the newness of obtaining PR (Pom Review).

In a letter, very similar to the one above, that

I did not have time to get this in the April issue so, at this late date I need to express my gratitude for the reception and praise I received for the trophy display at our National Specialty. I even received congratulatory cards in the mail for a job well done. I surprised myself by covering all expenses of trophies, special award plaques, gifts, ship-

(Cont. on page 71)

ping, engraving, printing and postage for flyers and then a tidy sum up and above all costs. This in spite of the fact that I had taken the job at a late date.

The Pom figurine on top of the oak grain frame, the APC logo on the front and identification of the event with placement and date engraved on a black plate made them even more special. I have won hundreds of trophies that unless I marked them, I had no idea of when or where I got them. There were no Pom figurines in my early days of showing.

To be able to attend the annual Specialty was a special award in itself - to visit with "old timers" meet "new comers," witness so many beautiful Poms at one time, and note the changes that have taken place. I hope they never fully take away their natural beauty and soundness.

I am especially thankful for having been given so many active years, friends and associates. This was made evident this past Christmas season. I had Dolores' daughter (she calls me Grandma) make me copies of the awards offered in trophies for all four places in all classes. Was late getting my Xmas cards out, so enclosed a copy with my card telling my friends how honored I was to be Trophy Chairman for this big event. This resulted in nearly half of my donations coming from my personal friends. They were so happy and proud for me they wanted to help. Know for a fact that many could not afford this but they did so saying they were giving themselves an Xmas present of good feelings. This is true friendship. I only wish each of you can experience what I have in my 85 years. Just remember and realize you can be the one walking up front receiving a special award for Breeder of the Year, etc., as you witnessed at the banquet last February; and eventually being in my position, reflecting back on what has been.

I cannot resist telling you of another experience and reward I had this past year; to see the female - Watts Little Half Hour - win first in Bred by Class and on to RWB at the February Specialty. Why? Because she was a 4 1/2 oz. babe that whelped while Dave and Dolores were away to shows. After an all

night vigil this little girl arrived at 11:30 with no life signs, white feet and tongue. I worked fervently with all the knowledge at my command and in exactly thirty minutes she let out a faint gasp. Through blinding tears I had her breathing 75% normal an hour later, when another girl made her appearance and fifteen minutes later, a boy. Both lively and O.K.

By the time Dave and Dolores arrived that evening, mother and pups were resting comfortably. "Half Hour" had to be put on mother to nurse and supplement feedings for three weeks. I watched for and expected brain damage but luckily, it did not occur. To watch her develop into a beautiful female, win BOS (only a puppy herself) to best adult at the Ohio Match, 3 points acquired before the Specialty, two (4) point majors back to back following and then finish championship later, made my days. All the money in the world could not buy me a greater gift for my efforts. Am sure she will bring me more pleasant moments as time passes. I couldn't resist telling you breeders about this experience and how she got her name. Too, it might give someone in the incentive to not give up and maybe save another beautiful boy or girl.

Now I have another project in progress, a male pup, "Corkie," of a one pup litter by C-section. This after 15 hours from first appearance of membrane before we got help. He always needed assistance getting on mother to nurse and supplementing four times a day by bottle. When time to feed soft food, he was slow to catch on which necessitated force feeding until finally he licked baby food from finger, then spoon and at 8 weeks of age, was eating from a dish as I held him up on the counter. Now he is eating fairly normally in the pen and as of this writing, going in and out of the pet door. He will be dynamite, if he grows.

These special things I am able to do keep me busy and reaping one reward after another. "Never a dull moment." Looking forward to seeing you at the Summer Specialty in Baltimore and in the meantime, keep your chin up and always step forward

Edna Girardot

Dear Bruce,

First, let me apologize for not getting an ad in for the April Review. Time just got ahead of me and yet I did have so much to boast about. I should have gotten an ad in to crow: Co-owner of the Top Producer for '89, CITY LIGHTS (tided with Prince), breeder/owner of our wonderfully producing bitch DUCHESS (7 chs. to date and she is only 4), and most exciting and very unexpected, Top Breeder.

We are so proud and as I said in new York after the presentation of the award, it would not have been possible if those great people had not shown the dogs they bought from us. It doesn't do any good to produce a good dog if it is not shown. So I am very grateful to those people. Only one of the champions that we produced in 1987 was shown and finished by us.

I am very impressed with this first issue, for you, of our favorite dog publication, The Pomeranian Review, and congratulate you on a job very well done.

Sue Goddard  
Opelousas, LA

Dear Editor,

May I offer one more opinion to the very old and frankly, burned out, subject on trimming or sculpturing of the Pomeranian.

We seem to be running out in all directions. Let me run a little further.

The standards states — Any trimming beyond location and amount described should be heavily penalized.

#1 — The amount described on legs is none. Would a judge favor a Pom with legs shaved to bare skin in the back up to the first joint, all possible hair between and around toes cut off? NO-O-O-O-O-O!

Would we take such drastic steps with our precious show Pom? We "round" the legs and feet, carefully trimming each hair to give the impression of "little posts." (Looks nice, doesn't it?)

#2 — Unruly hairs (ears and anus only)

A — Ears - OK - according to the standard "edges only," Most people know where the edges of the ears are.

other story all together. A lot of people think "around the anus" is around and around and around - all the way around to the head. You trim around the anus - OK - then, you trim the pants (they're around the anus, aren't they?). You trim a little off the base of the tail. (It's around the anus, isn't it?) Belly hair too long? Trim some off. (It's around the anus somewhere!) Then there's the bib and mane, (shucks, trim it too - you're still around the anus.)

My impression is:

Today's Pom is trimmed to the standard. (Unruly hairs around the anus.) So quit your bitchin'. Besides, the heavy penalty could be a class win, a best of breed, or even a best in show for a nicely well rounded, show groomed Pomeranian.

Joann Shifflett  
Montvale, VA

Dear Editor,

Here we go again with excessive trimming! I really don't want to start on this, but someone has to. I would be the first to complain about excessive trimming, HOWEVER, there are those Poms who really need it.

When I entered, now Ch. Autumn's Cairo of Bi-Mar and a producer of two Champion bitches, in his first show, at six months, the judge walked up to the table and remarked, "oh, what a cute baby Chow Chow!" Sorry, forget it, I have had it! That #4 dog went home and this amateur sheared at least two inches of hair off him, ALL AROUND! He then finished in thirty days! I swore no one was ever going to make that remark about my Poms again. I also had to do it to his two daughters.

All three have an abundance of long coarse, thick coat, which stood straight out and granted, they probably looked like baby Chow Chows but the judge didn't have to insult my dogs! That, to me, is hitting below the belt., especially as a breeder/owner/handler, as I take a tremendous amount of pride in what I own and how I breed. A lot of time goes into studying pedigrees as well as who is going to be bred to whom.

Then we can turn the coin over. I have

(Cont. on page 73)

## Yips and Yaps

(cont. from page 72)

had three persons accuse me of sculpturing my latest dog, Sam! Hey, with him, I am very lucky, he was born that way. He requires a very minimum amount of trimming and looks perfect. I dare anyone to find a scissor mark on him. In the five years that I have been showing Poms I have only seen one judge dump a dog because, as he told the handler, he was sculptured.! I should know, I sculptured both of them the week before! Don't get me wrong, she was an all around lovely proper sized bitch with everything going for her.

Judge Dr. J. Hungerland once remarked at an open session in Idaho, "you can sculpture the dog anyway you want, but you cannot hide the structure and faults nor change the gait and that is what I look for."

In general, it all boils down to the dog. What makes the dog look good. Are his ears where they should be; is his bone proper; what about his animation; his tail set; his movement; his balance? It sounds like we are trying to be the only breed who requires everything about our standard to be perfect before they can win. AND, what about the judges who can't get past a baby face? Where, in the Standard, does it say a Pom has to have a baby face? Believe me I know, I've done it myself. Then we have the judges who want itsy, bitsy, teeny, weeny (from the song!) and will put up such a BITCH, over specials, as BOB! We have all been there and it's no fun. Poms have coats from tons of soft open coat to extremely long thick, coarse coats. However, that does not change the structure under what ever coat. As long as that is correct, why not have a coat to compliment that structure? Why should a #4 Pom look like #7?

Too much fuss is being made about sculpturing. How many of you have casually walked through our instant cities and observed the "Nordic" dogs being trimmed and powdered? They do more than their share of BIS's. We, as a small specialty club, cannot fight the system of judges and breeder/judges. The old judges will still do what they want and our young judges will, as well, do what they want. Sculpturing is really secondary. Should we not concern

ourselves with structure, sound movement, our adorable animation, our cute ears and adorable faces? I don't love my human children because they are beautiful - I love them because they are beautiful inside! Are dogs supposed to be far superior to humans, perfect in every respect? Let's get real - Poms aren't winning because of superior being - take a look at the other end of the lead! Watch the judge's eyes. I have a Lab and have seen it happen and must admit, did it myself! I have handed my Lab off to a handler who could win under that judge. I am guilty. I am guilty with my Poms as well. The Lab standard is 22 1/2" - 24 1/2". My Lab (considered a breeder/judge dog - is at the bottom of the standard). They are in the process of changing that standard to 24 1/2" - 26 1/2" so field dogs can enter. Does that make my dog obsolete? Yet, he is still what the English demand and is a field dog! He can clear a 4' fence, from a stand still. They want them to clear a 6' fence! One learns the tricks for the trade very quickly. Let's be honest, we use what we can - when we can.

We have breeder/judges who sculpture and lacquer, in our area, who do more than their share of winning under these conditions, and just because we are not judges, we cannot do it?

People are somewhat the same way - my two daughters look fantastic with their long thick dark mane of hair. Mine is extremely coarse and thick and looks better very, very short!

Win a few, loose a lot and keep smiling I do! I am a born competitor (one who is engaged in selling or buying goods or services in the same market as another) and love to compete (to contend in rivalry, as for a prize or in business) as competition (contest between rivals; a match. The effort of two or more parties, acting independently, to secure the custom of a third party by offering the most favorable terms) is what it is all about. Webster still defines it well and human nature will still follow that definition.

Dear Mr. Driggers,

We are sending you our Report on the 31st Spring Specialty Show of the Dallas Fort Worth Pomeranian Club, Inc, 1990. While this report is probably going to just miss your deadline for this issue, we feel this report would be of interest to your readers in this upcoming issue.

We apologize for any inconvenience this may cause and just want you to know that we will be more timely with our reports in the future. We would certainly appreciate this favor if it is something you can do for us. If not, we will understand and will hope to see this report published in the subsequent issue.

Thanks for your help and cooperation in this matter and we want to wish you every success with your new endeavor with this publication. We really enjoyed your first issue!

Bill McKinney,  
Acting Historian

To The Editor,

I was very upset with my advertising. I did not ask you, now instruct you, to crop my pictures. If and when I want my pictures cropped I will place a 8 1/2" x 11" piece of paper over them, showing you exactly how I want the picture to appear, otherwise I want those judges in my pictures. The second picture looks a little stupid considering I mentioned "the personable Mary Dee Lindemaier, Judging Sweepstakes" and she isn't even in the Picture! I do a lot of advertising in the Review and would like my ads entered as instructed.

We did not even get the Review until May 10th, so this article may not even make it considering our deadline is May 15.

Emily Untalan  
Tigard, Or.

Ms. Untalan,

Perhaps I might have been incorrect on the cropping of the photo on page 70 of the April issue. But you did write on your sample copy sent in to

"please crop to center subjects more, no borders." I cropped, I felt, per your instructions, centering in on the handler and dog. After all, the dog is the actual focus of the photos. You gave no instructions on the other two photos so I cropped again, to focus more on the handler and dog. With well over 20 people advertising in each issue, I cannot remember what everyone likes, or dislikes in their ads, unless I am specifically told. Yes, Mary Dee Lindemaier was half cut out of the one photo but this was a printer error (trust me!). I do apologize to you and Mrs. Lindemaier for this. Every attempt is being made in the future to get better control of printer responsibilities and not have such happen again. But please, your precise instructions are a must! I am not a mind reader. If I'm not told, then I will use my own judgement, as editor's have every right to do!

Ed.

Dear Bruce,

First, I would like to congratulate you on your first issue of the Review.

Secondly, I fully meant to have an ad in the July issue, but since I have had my April copy only a few days, it slipped my mind how close the deadline was, as I was in the habit of having a month or so to get my ad in for the next issue. I'm sorry - I'm 77 years old and am forgetful.

Ruth Beam

Dear Mrs. Beam,

You have nothing to be sorry for. It was a delight to receive your card and your congratulations on the first issue. The issue did get out rather late, you are not in any way to blame. Besides, you're not 77 years old! No my dear, you're 77 years young. And I know the large numbers of subscribers to Pom Review agree that your knowledge far exceeds your youthful years. I only hope that I am able to acquire a portion of your vast knowledge in dogs by the time (if I'm lucky) to reach your youthfulness. You are truly a treasure.

Ed.

## Tips and Yaps

(cont. from page 74)

Hello,  
My name is Debbie Baird and I am the owner of two beloved Samoyed's.

During the last several months, based on my own dog's experiences, I have been extensively researching the drug-induced autoimmune diseases. At this point, I have reason to believe that there are certain drugs which can induce the autoimmune or immune mediated diseases in individual dogs of certain breeds. As part of my research, I felt it necessary to contact you on your breed.

Some of the drugs which concern me are: tetracycline, trimethoprim-sulfonamide, novobiocin, sulfamides, propylthiouracil, and some of the hormone drugs (prednisolone, etc.). Many of these drugs are in combination drugs labeled under a different name.

Some of the visual signs may be: pigmentation loss of the lips, nose, and/or eyelids, crustiness of the lips and/or nose (sometimes may only be known by touch), any other mucus membrane areas (genitals, anus, etc.). Other than the visual signs the

dog(s) can still appear to be their normal selves (no fever, etc.).

I would like to know if you are aware of any such problem(s) within your breed? If so, could you tell me what drug(s) were involved and what were the adverse effects (reactions) of those drugs? Also, do you know of any dog(s) who have or have had Pemphigus/Pemphigus Erythematosus, an autoimmune disease? Any additional information you could offer pertaining to this subject would be greatly appreciated and helpful.

Thank you for your time and information. For your response, my address is listed below.

Debbie Baird

*(Ed's note: Some Pom people may have run across such indications mentioned in the above letter. Ms. Baird may have sent this letter to us due to the Sptiz background associated with the Pom and Sammy. If you feel you can be of any help to her, please write to her with your information.)*

## Yips and Yaps

(Cont. from page 78)

Dear Mr. Driggers,

Enclosed \$25 check for quarter page ad in July issue of Pom Review. Thank you for handling our ad so nicely in April Issue. You did a nice job! But please continue the advertiser index in subsequent issues. It's so hard looking up particular breeder's ads (and one's own) without it! Thanks, again.

Lois Ciliberto

*(Note: The following letter was actually addressed to Brenda Hutton, Obedience News and she forwarded it to me. I thought it proper to be placed here.)*

Dear Brenda,

I had written you before the April deadline but guess it got lost in the shuffle.

As a bit of correction, or addition to Obedience News on page 79, April edition: Gold Dust Pandys Manies, CDX added 3rd leg with a score of 194 on 9/24/89 at Davis Dog Training Club, and as an insurance leg the next day with a score of 191 1/2 in Sacramento Dog Trainin Club Obedience Trials, both held in Dixon, Ca., with over 200 dogs entered in Obedience each day. (Her breeder, Louise Forrester)

Pandy received Hi scoring Toy trophies both days, and also won a trophy in Davis trial for "highest scoring dog to finish her CDX title" that day. (Open A)

At the Nor-Cal Dog Training Club in Redding, Ca. end of the year party we received a club trophy for Hi Scoring member and a sweatshirt with club logo on the back and Hi Scoring Member on the front.

We will be going to Shasta, Chico, and Two Cities shows June 15, 16 & 17 to try for Utility Title. It would be thrilling to finish Utility Title this year.

We are sorry, too, that Spunky didn't get to finish title in '89, but just bet that Spunky and you soon will. I may try tracking with Pandy later if we can get that UD title this year. Her nose seems pretty good in the scent articles.

Best of Luck,  
Elma Manies

## Another Companion

Having spent close to 20 years showing and breeding on a limited basis and having observed the progress that has been made towards the enhancement of the breed, I decided to take the big step towards becoming involved with Poms again. This time, I'm making a firm and serious commitment to showing and breeding quality Poms.

After considerable research of the various lines, attending numerous shows, reading thru many issues of the Pom Review, as well as reading and keeping up with show results from the AKC Gazette, I sought out the breeders with the lines that would be my foundation stock.

My purchase turned out to be the opposite. Instead, I ended up - minus square one.

Realizing that no one can totally foresee the future of a four month old puppy, I am taken back at the fact that a well-established breeder can be so far off in their recommendation when selling a show quality Pom that "should have no problems finishing."

At the age of fourteen months, my dog, although at first sight, would be considered "pretty," has numerous faults (two are major), would only serve as a deterrent if used in a breeding program.

I am still looking for that "special Pom," but I am somewhat leery, because I do not wish to acquire another "loving companion."

If anyone can offer me some suggestions as to how to avoid this type of situation, I would appreciate hearing from you.

Sincerely,

Gerald J. Kripak

Hi Mister Bruce,

We loved the Review!!! Very well done! We are (predictably) getting some negative comments — but this will pass. Anytime you "rock the boat" someone will be displeased! Oh Well.

Congratulations!!! That was

# Les petits chiens Les lus populaires de Quebec"

E. Bruce Driggers

The English translation to the headline "Quebec's most amazing doggies." Some you may have heard of them, some may have seen them, but not all know about them (at least not in the U.S.).

John Cribbs, Pom Review's circulation manager, recently sent me the accompanying photos (not all were used), an article out of a Canadian magazine and a letter from Marc Desrochers, owner of these very popular and amazing little Pomeranians.

I thought by re-writing a bit of the article and including some historical facts about Mr. Desrochers would be of interest to you. His Poms are truly the best ambassadors that you as Pom owners and breeders could ask for. I was simply fascinated.

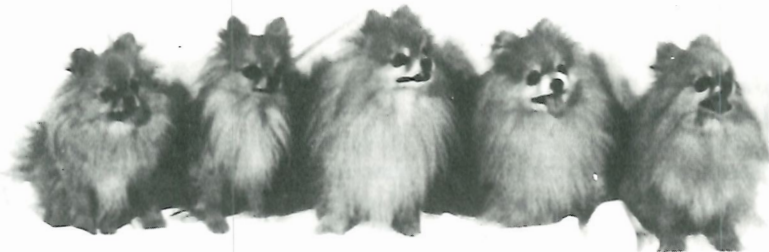

The writer of the Canadian article (a judge) told of a jaunt to the old city of Quebec during a judging assignment. The intent

was to walk the narrow cobblestone streets and the numerous artists and crafts people at work. What he found was the performing troupe of 12 Pomeranians.

According to the judge, all Poms were off lead and were putting on some pretty amazing tricks for the huge crowd. The judge sat down on a bench that had two steps and at a single command from the Mr. Desrochers, the dogs jumped to attention; six sat on the lower step; a black one and a white one jumped into his arms; and four others sat beside him, two on each side.

Another command was given and they all formed into ranks like trained tiny soldiers and marched to a set pattern much like soldiers are taught to. At another command, all rushed towards the crowd of enthusiastic spectators to receive much loving admiration and attention.

When the performance was over, Mr. Desrochers, suitcase in hand, called the dozen Poms and all disappeared, still off-lead, down a narrow cobblestone street.

(cont. from page 80)

Amazing! But those of you who own and love the breed, know what intellect hides behind those little eyes of light. And according to Mr. Desrochers, his troupe is the first to do Pet Therapy in the province of Quebec.

It all started in 1982 and while walking his first 3 Poms, Mr. Desrochers passed by a home for the elderly during the lunch hour and some nurses encouraged him to bring the Poms inside (through the back door, of course) to see the residents. He did this secretly three times. Then he heard on the TV program "60 Minutes" about Pet Therapy being done in the states for the first time.

At this time, he now has five Poms, and he goes to the same home for the elderly and got kicked out of the lobby without getting a chance explain the reason for his presence!

A few weeks later, Mr. Desrochers wrote an article on Pet Therapy and told of his experience at the home. A year and a half later and under new management, Mr. Desrochers was contacted by the new management and asked if he would be interested in starting the Pet Therapy again. He started with just once a week, then went to twice a

the third year, he was visiting once every two weeks. This has been continual since 1984!

He has extended his services to visiting areas as far as 100 miles away from home. His jaunts carry him to homes for retarded children, the blind, crippled, the aged, etc.

He and his troupe have become so popular that there are official Canadian post cards with the Poms on them (see the pyramid mid photo) and t-shirts with laser imprint of the 12 dogs and their names are being sold throughout the region. Also imprinted on the t-shirts is, "Les petits chiens les plus populaires de Quebec," - "Quebec's most amazing doggies."

gh assignment - to take over so hurrldley!!!  
"done good."

Here is my stud ad stuff. Do hope it is comprehensive enough. Skip and I are sharing a front and back page -- so be sure to put ours together (front and back). Also, Bruce, we would like to buy 100 extra copies (front and back) -- even though they call them "tear sheets." I always pay for them - but since I do not know the price, I will wait for you to bill me for that part. Skip should be sending his 2 stud cards soon. Also, he will pay for 1/2 of Prince's ad (since we co-own little "man").

Regards - call if you need help or have questions.

Dear Bruce,

Enjoyed the open view of yourself in the April Pom Review. Until I saw your picture, I had no idea who you were but I have seen you many times at shows. I have shown dogs since I have seen many handlers come and go. I loved Sporting dogs and Hounds from the 1960's. Due to health problems, I went to a toy breed - the Pom. I purchased Sungold Gay Cavalier in late '59 and the late Frank Ashbey (he lived 15 miles from me in N.Y. state) finished him then the late Clara Alford took him in February 1960 as her priority dog. She retired the great X - Tic Ta Shaun after BIS Westminster 1960.

I have had soem exciting times showing dogs - breeding over 150 champions - (after chasing and finishing Cavalier and Personal Quest - long gone) but still holding record of most champion get. Carey had 66 American and 6 foreign champions and Per. Conquest, 15. The male reached 39 and just this year, 3 bitches produced 10 ch. get. I doubt if Carey's record will ever be broken. I am a life member of APC for several years now and life member of Sporting and Hound breeds.

Had the honor of taking trophy chairmanship of our last February national specialty in N.Y. I had a great showing and covered all the expenses, plus.

I am living with Dave and Dolores here in Maryland. Dolores, as you know, is our current President. She purchased her first dogs from me some 20 years ago.

Good luck as editor of our Pom Review. May see you someday at a show. I'll make certain to say hello.

In the interest of Poms.

Edna Gerardot

Dear Bruce,

Sorry to be so late with our ad copy. I will try to do better next time. We have just returned from a convention and I got behind on many things.

Overall, I think you and the printer did a good job on the April Pom Review. Some of the pictures were a little dark and small but I am sure with time you will improve there.

Could I offer a suggestion to you when space allows in the Review? Why don't you go back to the older Pom Reviews of the 50's, 60's and 70's and re-print some of the better articles. There is a wealth of knowledge in those old Pom Reviews. I think the biggest criticism I have heard is that after you remove the ads, show wins and obedience, there has been little or nothing at all left in some issues. Originally the Pom Review was for Pom Breeders to help them but we have seemed to have gotten away from our primary objective. Many issues have had absolutely nothing in them to be helpful about breeding Poms.

The APC is suppose to supply you with all back copies for you to use or at least this has been the custom in the past. So much has changed in the club that I wouldn't be surprised if they were not doing this. If they do not do this for you and do not have a complete set of Reviews, have Dolores contact me and I can help in this area. We have an extra set of most all of the back issues during the first years.

Keep up the good work.

Ken Griffith

Dear Ken,

*Your point is well taken and a super idea. I will contact Dolores and any others that will be necessary to see if your suggestions would be possible. I think re-printing the wealth of knowledge stored in those old volumes would be of immense interest to the newer Pom people of the day.*

*Why don't you search through some of the old issues you have and send me copies of some very good articles.*
